EDUCATION

- 1) **University of Illinois, Chicago**
Master of Business Administration (Pursuing)
- 2) **BANGALORE UNIVERSITY**
Bachelor's Degree in Information Science and Engineering

SUMMARY

I founded DBA University in Chicago, USA in 2010 with the aim of providing world class training and services in the field of computer databases. We offer training courses in Oracle, Microsoft SQL Server and Big Data using Hadoop. Our courses are very practical oriented aimed to help students and experienced professionals succeed both in job interviews as well as in the real world. I have a total of 16+ years of work experience in Information Technology and I am an ex-employee of Oracle Corporation.

The DBA University difference

- All faculty are based in the **United States**.
- **Detail oriented** training materials.
- All lectures are taught using a **digital white board** which helps provide a traditional classroom like experience.
- Remote Desktop Connection for every student. (**Cloud lab** access)
- All courses are taught using **Cisco WebEx Training Center**. (The world's best e-learning solution.)
- A **Course completion certificate** is provided after completing the training. Students can upload the certificate to their LinkedIn profile.

Registration

Please select your course and purchase at www.dbauniversity.com

Database services

We also provide database services including remote database support. Please watch our reviews at <http://video.dbauniversity.com>

Corporations and Government

If you are from a corporation or a government agency and interested in buying training courses for your employees, you are very welcome. We will provide you a purchase receipt that can be used for reimbursement purposes.
