### SUMMARY

I founded DBA University in Chicago, USA in 2010 with the aim of providing world class Information Technology (IT) training and services. We offer training courses in Amazon Web Services (AWS), SQL language and database design, Oracle databases, Oracle ERP, Microsoft SQL Server Data Platform and Big Data using Hadoop. Our courses are very practical oriented aimed to help students and experienced professionals succeed both in job interviews as well as in the real world. I have a total of 18+ years of work experience in Information Technology and I am an ex-employee of Oracle Corporation.

#### The DBA University difference

- All faculty are based in the **United States**.
- **Detail oriented** training materials.
- All lectures are taught using a **digital white board** which helps provide a traditional classroom like experience.
- Remote Desktop Connection for every student. (**Cloud lab** access)
- All courses are taught using **Cisco WebEx**. (The world's best e-learning solution.)
- A **Course completion certificate** is provided after completing the training. Students can upload the certificate to their LinkedIn profile.
